

proud past, promising future

## Clark County Children's Service Providers

### **Catholic Community Services** (360) 567-2211

CCS specializes in serving children with complex needs through a community based, individualized approach that builds on the child's and family's strengths. Counseling is only a part of the wraparound service array that is designed by the child's and family's team that includes their friends, extended family, community resources, as well as the involved professionals (school, DCFS, etc). The treatment plan is comprehensive and addresses the family's prioritized challenges that cross multiple life areas/domains. NOTE: These services are limited to children and adolescents who are at risk of hospitalization, out-of-home placement, or loss of placement.

### **Children's Center** (360) 699-2244

Children's Center Targeted level of care provides regular and consistent contact with the child/adolescent and his/her family, including home visits when needed. Services are conducted by experienced case managers and mental health therapists. Psychiatric consultation and medical management is offered when warranted. Monthly wraparound team meetings are an essential element of effective intervention at this level.

### **Columbia River Mental Health Services** (CRMHS) (360) 993-3000

Columbia River Mental Health Services offers Universal and Targeted Services to children and families whose treatment cannot be met by brief, solution-focused therapy. Our Targeted Services take place in the community and use peer/parent supporters, case managers and therapists. Consumers are served by a team of dedicated workers who use a strengths-based and individualized approach to best meet the needs of the child and family.

### **Family Solutions** (360) 695-0115

Family Solutions provides mental health services in the Targeted modality for children and families. Services are strengths-based and individually tailored to the needs of families and children. A plan is developed in collaboration with the family and can include psychiatric services, individual, family or group therapy, behavioral coaching, case management and other services as needed. We also specialize in adoptive families who have children with special needs.

### **Children's Home Society** (360) 695-1325

Children's Home Society of Washington provides both Universal and Targeted Services. We specialize in working with children and families who are facing the most challenging problems. We provide our services in the setting most appropriate to the need for example, in home, in our office, and schools. You tell us your needs and we will individualize your service plan to meet those needs.
